Chapter 5: Cell Division

Growth and Division

In this chapter, we'll learn about how cells multiply...I mean divide...I mean..wait.

Hold on a second.

Oh, that's right. It's the same thing. When a cell divides, we've multiplied the number of cells we have!

treatment, they notice that the culture has stopped growing.

Untreated cells from the same culture, however, have continued to grow.

These results could indicated that the compound blocks the normal cell cycle.
