Corn Flakes Without Milk - Recipes | Cooks.com

Corn also known as maize is cereal plant which yields large grains set in rows on a cob. It is one of the most popular cereal grains in the world. Corn like all cereal crops are members of the grass family (*Poaceae*). Corn was first domesticated by indigenous peoples in southern Mexico about 10,000 years ago. Native Americans taught European colonists to grow the indigenous grains, and, since ...

Interesting facts about corn | Just Fun Facts

The price of corn suffered its biggest fall for 15 years on Thursday, prompting speculation that the high cost of food may start to ease. Corn prices fell 10% after a US Department of Agriculture report said that farmers were sowing unexpectedly large amounts of the grain. The price of other crops, including soybeans, also fell on speculation that future stock levels will remain high. Corn ...
