International Organisations

An international organization is an organization established by a treaty or other instrument governed by international law and possessing its own international legal personality, such as the United Nations, the World Health Organization and NATO. International organizations are composed of primarily member states, but may also include other entities, such as other international organizations. Additionally, entities may hold observer status. Notable examples include the United Nations, Organizati

International organization - Wikipedia

International organizations serve many diverse functions, including collecting information and monitoring trends (e.g., the World Meteorological Organization), delivering services and aid (e.g., the World Health Organization), and providing forums for bargaining (e.g., the European Union) and settling disputes (e.g., the World Trade Organization). By providing political institutions through which states can work together to achieve common objectives, international organizations can help to ...
